Preface

Dear all,

On behalf of the TAGE, I would like to present this valuable and informative second version of our Atlas for GI Endoscopy. We are proud to provide this book with the 8th International Endoscopy Workshop this year “Endoscopy Around the world” which is the greatest event of our association because we have nine distinguished international speakers to join the faculties.

Hopefully, our practices of endoscopy will be standardized and advanced as this book and will be a part of our progression for knowledge, skill and attitude.

Finally I do appreciate and sincere thank to Assoc. Prof. Rungsun Rerknimitr and his team who worked hard for this book, Dr.Thawee Ratanachu-ek for being a very effective secretary and all of TAGE committee who organize this excellent GI Endoscopy Live Demonstration “Endoscopy Around the World”.

Sincerely,

Assoc.Prof. Sukij Panpimanmas MD.
President of the Thai Association for Gastrointestinal Endoscopy (TAGE)
